## ABOUT ME

I am a passionate and dedicated Full-stack Developer with a strong foundation in web technologies and a keen interest in building modern, user-friendly applications. I hold a Master's degree in Economics, which has strengthened my analytical and problem-solving skills alongside my technical expertise.

I have hands-on experience with HTML, CSS, JavaScript, React, Tailwind CSS, Firebase, and API integration, and I enjoy creating responsive, visually appealing, and functional web interfaces. I am also exploring AI and continuously improving my skills to grow as a developer and AI engineer.

In addition to my technical background, I am a content creator and makeup artist, which has enhanced my creativity, attention to detail, and understanding of visual aesthetics—skills that I effectively apply to UI/UX design. I am motivated, quick to learn, and always eager to take on new challenges and deliver high-quality digital solutions.

## WORK-EXPERIENCE

Full-Stack Developer Intern  
Internee.pk  
Remote

Completed a structured internship program focused on full-stack web development. Worked on real-world projects involving front-end and back-end development. Built responsive user interfaces using HTML, CSS, JavaScript, React, and Tailwind CSS. Gained hands-on experience with Firebase authentication, database management, and deployment workflows. Collaborated with mentors and followed best practices for clean, maintainable code.

Web Development Intern  
Intern Intelligence  
Remote

Developed and enhanced web applications with a focus on performance and user experience. Implemented dynamic features, CRUD operations, and API integrations. Improved problem-solving skills by working on practical development tasks and assignments. Strengthened understanding of full-stack development concepts and project structure.

Freelance / Project-Based Full-Stack Developer  
International Client Project – Lyyvora.com

Designed and developed a complete website for an international client from scratch. Handled both front-end and back-end development, ensuring a modern and responsive UI. Integrated functional features, optimized performance, and ensured cross-device compatibility. Delivered the project according to client requirements with a strong focus on quality and usability.

## EDUCATION

Master's in Economics

University of Karachi

Bachelor's in Commerce

Government College of Commerce & Economics
